## Energy

**[AB 64\(Krekorian\)](#) Energy: renewable energy resources: generation and transmission. (A-05/06/2009 [html](#) [pdf](#))**

**Status:** 05/07/2009-Re-referred to Com. on APPR.

**Summary:** Would recast the renewables portfolio standard program, to be operative on January 1, 2011, to require that a retail seller and a local publicly owned electric utility: (1) procure at least 20% of the electricity delivered to its retail customers from eligible renewable energy resources by December 31, 2010, (2) procure at least 25% of the electricity delivered to its retail customers from eligible renewable energy resources by December 31, 2015, and (3) procure at least 33% of the electricity delivered to its retail customers from eligible renewable energy resources by December 31, 2020. The PUC would be responsible for implementing these requirements for retail sellers, while the governing board would be responsible for implementing these requirements for a local publicly owned electric utility. The bill would require the PUC to establish procurement targets for retail sellers that are sufficient to reach the above-stated requirements. The bill would require that an electrical corporation's renewable energy procurement plan include a process that provides criteria for the rank ordering and selection of eligible renewable energy resources to comply with the above-stated procurement requirements so that each corporation's total renewables portfolio benefits ratepayers. The bill would require the PUC to annually establish and adopt a benchmark price for electricity generated by an eligible renewable energy resource, for terms corresponding to the length of contracts, in consideration of specified matter, and for each electrical corporation, to establish a limitation on the total costs expended above the benchmark prices for procurement of electricity pursuant to the renewables portfolio standard and would prohibit the limitation from exceeding 5% of the electrical corporation's revenue requirements. The bill would require the PUC to allow an electrical corporation or other retail seller to limit its procurement to the quantity of eligible renewable energy resources that can be purchased at or below the cost limitation if insufficient to support the total costs expended above the benchmark price. The bill would revise existing law with respect to the use of renewable energy credits to meet the renewables portfolio standard procurement requirements. The bill would authorize the PUC to modify certain requirements for an electrical corporation with 60,000 or fewer customer accounts in the state that serves retail end-use customers outside the state and provides that a public utility district that receives all of its electricity from hydroelectric generation pursuant to a preference right created by a specified federal law is in compliance with the renewables portfolio standard. This bill contains other related provisions and other existing laws.
